The Blow Meter Tests

To prove the superior power of the Little Wonder Blowers, compared to the competition, we devised the Blow Meter Tests.

We tested the 8hp Little Wonder against the Billy Goat 10hp, and the Giant Vac 9hp. The object of the test was to push a weighted cart (49.47 lbs.) up a 12 foot long, 12° incline.

We measured both maximum and sustained distances. **The results speak for themselves.**

LITTLE WONDER®

HIGH OUTPUT BLOWERS

SIMPLY THE BEST™

- ▶ **Patented Adjustable Air Deflector** — Moves piles of debris farther and faster by allowing the operator to direct the air stream. And, without blow-back! You only have to go over the area once.
- ▶ **Ergonomic Handles** — Height adjustable handles are designed with anti-vibration grip.
- ▶ **Reversed Inclined Blades** — Dramatically increases the performance of our Blowers due to the angle at which the blade strikes the air.
- ▶ **10" Pneumatic Tires** — All models feature these tires for ease of pushing and maneuverability, even on rough, uneven ground or asphalt.
- ▶ **Curved Aerodynamic Inlet** — Draws air in smoothly around the entire inlet area. This design results in constant power even if leaves are drawn into the inlet, avoiding clogging.
- ▶ **Durable Blower Housing** — Continuously welded, 12 gauge steel housing, for strength and durability.
- ▶ **Lift Handle** — Makes lifting the blower in and out of the truck easier.
- ▶ **NEW Intek Models** — Run smoother and cooler for better reliability and longer life.
- ▶ **5 year limited warranty** — Covers defects in material and workmanship. Engines warranted separately by engine manufacturer.

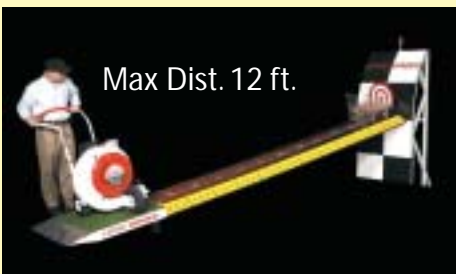

We designed this revolutionary new side discharge system. Besides allowing the operator to change air direction without tools, this unique, **patented** split opening deflector eliminates "blow-back" or windrowing.

The optional, easy to install, Swivel Wheel Kit is specially designed to let the operator have 360° turning and control. The wheel can also be easily locked in to a straight position as well.

INCREASED MANEUVERABILITY

Optional Swivel Kit Product No. 9050

- ✓ Gives you 360° turning and control
- ✓ Locks straight for hill applications
- ✓ Easier maneuverability
- ✓ Extends tire life - no more wheel dragging
- ✓ Easy to install

"The Little Wonder Swivel Wheel Kit makes operation a breeze, and extends the life of the front tire."

Chris T., J Sharp's Landscaping, Inc.
