### Little Wonder Electric Hedge Trimmers Offer A Lifetime Of Cutting Power

The Little Wonder family of Electric Hedge Trimmers offer the high-quality craftsmanship demanded by professional landscapers at a competitive price. These lightweight, heavy-duty trimmers pack enough power to easily cut stubborn growth from shrubs and hedges up to one-half-inch thick and are engineered to last.

Many electric hedge trimmers feature just one moving blade... Little Wonder Electric Hedge Trimmers have two reciprocating blades that glide back and forth for flawless, fatigue-free trimming even at speeds of up to 2,700 cuts per minute. Little Wonder blades are made from individually hand-finished high-carbon steel for superior cutting performance and longevity.

#### Little Wonder Electric Hedge Trimmer Features:

- Six models to choose from, both single-edge and double-edge models are available in 19-, 24- and 30-inch cutting blades.
- All models feature two reciprocating blades made from individually hand-finished high-carbon steel.
- Cutting Speed: up to 2,700 cuts per minute, virtually vibration-free.
- Cuts growth up to 1/2" thick.
- Dual-handle switches combine to operate all trimmers, blades and the motor stop within one-half second of release of either switch.
- The motor is double insulated, sealed within a metal gearbox and surrounded by high-impact material to increase the unit's durability.
- Helical-toothed gears are encased in protective metal gear housing providing increased cutting power.
- Top and bottom bearings on Little Wonder's heavy-duty motor ensure a longer motor life.
- Double-edge models feature protruding safety "combs" that extend beyond the cutting blades to enhance cutting performance and help prevent accidental contact with the body.
- Double-edge blade models cut quick and smooth in any direction.
- 1-Year Commercial Warranty against defeat in workmanship.

All Little Wonder products are constructed for heavy-duty daily usage and are designed with the professional user in mind.
