The Little Wonder SHO: Compact Power

Great things do come in smaller packages...

Little Wonder SHO (*Suburban High-Output*) Blowers are compact, lighter weight, more maneuverable units. These blowers are designed with the power of much heavier, higher horsepower models. The 5-hp SHO weighs a comfortable 110 lbs. and features a sleek hard working Honda engine. And the new 6-hp model weighs 115 lbs. and boasts a durable Briggs & Stratton engine.

The SHO features a technologically advanced composite impeller design. The composite impeller is lighter than standard steel impellers and utilizes forward inclined blades, which are far superior to conventional flat blades. This design works in unison with the curved inlet to create especially smooth airflow around the entire intake, and the curve of the inlet insures constant airflow - even if part of the inlet is covered with leaves. The composite impeller design also improves the velocity of the air output, far exceeding what one might expect from a smaller engine model. Like all Little Wonder High-Output Blowers, the housing is constructed of continuously welded high gauge steel for exceptional strength and durability.

New Little Wonder 6-hp SHO Blower shown above.

The Little Wonder SHO Blower comes with a Five-Year Commercial/Consumer Warranty and incorporates all of the features and quality craftsmanship that make Little Wonder Blowers the choice of landscaping and grounds maintenance professionals. All Little Wonder products are designed with the professional user in mind and are engineered for heavy-duty daily usage.

NEWS RELEASE

Divisions of Schiller-Pfeiffer, Incorporated • 1028 Street Road Southampton PA 18966 USA
Telephone: 877-596-6337 • Fax: (215) 357-1071

Little Wonder SHO Blowers feature:

- Two engine options:
 - 5-hp Honda
 - 6-hp Briggs & Stratton
- An advanced impeller design, with aerodynamically constructed housing and curved air inlet, translates into maximum airflow
- 12" pneumatic rear wheels for improved maneuverability
- Revolutionary side discharge system, allows the operator to change air direction without tools
- Patented, split-opening deflector eliminates "blow-back" or windrowing
- Comfortable cushion-gripped, height-adjustable handle to ensure fatigue-free operation
- Optional, easy to install, swivel wheel kit allows the operator 360° turning and control. The wheel can also be easily locked into a straight position
- 5-Year Commercial / Consumer Warranty
